

## **NETBALL:**

Netball at Beaulieu Prep offers a comprehensive and progressive programme that fosters a love for the sport, develops skills and offers competitive opportunities for its students. In Grade One and Grade Two, pupils are introduced to the fundamental skills of netball during their Physical Education lessons. These skills are put to use in friendly internal games, focusing on participation and the learning of positional play.

From U9 to Open levels, the students become more competitive and engage in weekly interschool league matches and Saturday Festivals. The school takes pride in the high participation rate of girls in netball, as up to three teams per age group can be fielded. This level of involvement ensures that the students have ample opportunity to refine their abilities and grow as players.

At Beaulieu Prep, the emphasis on talent development is evident, with elite players in the U12 and U13 age groups being selected to attend the annual district trials. These trials serve as a pathway to potential Provincial selection, providing an exciting opportunity for talented athletes to showcase their skills at an even more competitive level.

The netball programme at Beaulieu Prep focuses not only on honing the students' netball abilities but also instills important values such as teamwork, discipline and sportsmanship. The supportive and nurturing environment allows each individual to flourish and to discover their passion for the sport.

Beaulieu Prep's Netball programme is designed to provide a holistic netball experience for its students. From foundational skills in the early grades, to competitive league matches and district trials for talented players, the school offers a platform for young athletes to thrive in the sport they love. As netball continues to flourish at Beaulieu Prep, it remains a source of pride, unity and achievement within the school community.
